BULLED S 30W floodlight with PIR, 2400lm, IP44, 4000K, aluminium + glass

BULLED S floodlight is suitable for use both - at home and in industrial areas (e.g. garages, halls). Its light source in form of SMD LEDs, emits light in a natural white color suitable for lighting rooms with a lot of glazing and steel. Neutral light is also used to illuminate facades or gardens, so BULLED floodlight will be perfect to provide light to outdoor spaces like: car parks, entrances to property, building walls, or to illuminate advertisements, etc. IP44 ingress protection rating ensures its sufficient resistance to dust, dirt and water, and the use of aluminum and glass for the production guarantees resistance to all harsh weather conditions. The device has a built-in PIR sensor that reacts to motion and allows to set the lighting time according to your preferences. The maximum detection range is 8 meters, and the time setting varies from 10 +/- seconds to 10 +/- minutes. The product comes with a connection block, instead of a power cord, which ensures a neat and hermetic connection with the power supply.

Light source:
LED SMD

Luminous flux:
2400lm

Control of the motion sensor:

Rated power:
30W

Nominal voltage:
230V~, 50Hz

Degree of protection (IP):
44

Colour temperature:
4000K

General information

Light source: LED SMD

Rated power: 30 W

Degree of protection (IP): 44

Colour rendering index (ra): >80

Colour: black

Luminous flux: 2400 lm

Nominal voltage: 230V~, 50Hz

Colour temperature: 4000K

Solar panel: no

Adjustable daylight sensor (LUX): yes

Dimensions - width: 155 mm

Daylight sensor adjustment range (LUX): <10 LUX-2000

Adjustment of motion detection range (SENS): yes

Dimensions - height: 158 mm

Adjustable time setting (TIME): yes

Dimensions - depth: 75 mm

Lighting time adjustment range (TIME): 10S±3S-10Min±3

Detection range: 4-8 m

Detection angle: 120°

Type of sensor: PIR

Control of the motion sensor: yes

Other features:
