LED workshop torch 3W 200lm + 3W 50lm, 1200mAh, 3 work modes: 100%, 50%, front diode, magnet, clip

This handy, rechargeable workshop torch has been equipped with two modern LED diodes (side diode and front diode). Thanks to its small and compact structure, it will be of great use in the most hard-to-reach places. The WL-2 flashlight is made of ABS - a durable and damage-resistant plastic. The switch on button, placed on the back of the housing, allows you to change the light intensity modes: 50%, 100% or switch to the LED diode located on the top of the torch. In addition, this product is equipped with a battery indicator, a magnet and a holder for attaching the flashlight to the belt.

Light source:
COB LED

Rated power:
3+3W

Battery included:

General information

Light source: COB LED

Rated power: 3+3 W

Rechargeable: Yes

Material: ABS

Luminous flux: 200+50 lm

Type of power supply: 3.7V Li-Po battery

Battery capacity: 1200 mAh

Colour temperature: 5000K

Battery included: yes

Number of working modes: 3

Dimensions - width: 162 mm

Lifetime: 50000

Dimensions - height: 29 mm

Dimensions - depth: 22 mm

Battery charge indicator: Yes

Equipment: magnet, clip, micro-USB cable

Lighting time: 3 - 10 h
